Profile

"Driven Computer Science student with practical experience in Python programming. Passionate about transforming data into insights and eager to contribute to innovative, real-world tech solutions through strong analytical and problem-solving abilities."

Experience

Python Development Intern
CodSoft · Virtual Internship · July – August 2025

- Completed a remote Python internship at CodSoft, building 5 real-world projects using core Python concepts. Built 5 mini-projects during a Python internship at CodSoft, applying logic, file handling, and user input.
- As a Python Programming Intern at CodSoft, I completed five structured projects designed to enhance real-world development skills.
- I built a range of applications—from a dynamic password generator and task manager to a fully functional contact book. Each project sharpened my understanding of core Python, logic building, and user interaction.

Project

1. Resume Analyser

- Built a Resume Analyzer web app using **Python**, **Flask**, and **NLP**.
- Extracted **skills**, **education**, and **experience** from uploaded resumes.
- Matched extracted data with **job descriptions** to calculate relevance score.
- Provided **improvement suggestions** for better job alignment.

2. SpendWise – Personal Expense Tracker

- Developed a full-stack web application to help users log daily expenses, categorize spending, and track budgets efficiently.
- Designed a responsive and interactive frontend using HTML, CSS, JavaScript, and Bootstrap.
- Built a robust backend with Flask and SQLite to manage user data, handle form submissions, and generate real-time summaries.
- Integrated Pandas and Matplotlib to analyze data and visualize monthly spending trends through charts and graphs.
- Focused on clean UI, smooth data flow between frontend and backend, and optimized queries for better performance.

CERTIFICATIONS

- Deloitte Data Analytics And Job Simulation – Forage
- Programming Certification – Ideal Management Group
- Python Essentials - Cisco
- IBM Generative AI – Issued by IBM
- Salesforce AI Certification

Skills & Abilities

- Python
- SQL
- Pandas
- AWS-Solutioner
- DSA
- Numpy
- Rag

Education

Gyan Ganga Institute of Technologies and Sciences, Jabalpur MP
Bachelor of Technology (btech), Computer Science(2022-2026) | CGPA : 7.40

Vatsalya Senior Secondary School Sagar MP
Class XII – 67.9% (2021-2022) | Class x - 60% (2019-2020)

Interests

Singing ,Reading, Learning new tools.
